

## Constitution, Regulation and Policy Working Group (CRPWG)

### Terms of Reference

#### 1. Background and Definitions

UMSU Inc. (UMSU) is an incorporated association under the *Corporations Act (Cth)* and *Incorporated Association Reform Act (Vic)*, and associated legislation. As part of this arrangement, UMSU has a Constitution, which broadly sets out the rules of the organisation. These rules also contemplate the creation of both *regulation* and *policy* by the governance bodies of UMSU, Students' Council being empowered to create the former and both Students Council and Departmental Committees being empowered to create the latter. These additional documents allow for the regulation and management of UMSU at both a detailed and broad level, in line with the UMSU Constitution.

It is the usual practice for a Working Group considering these three tiers of governance to be established each year, and for consideration to be given to matters requiring the amending, repeal or introduction of Constitutional clauses, regulation and policy. Furthermore, representatives from UMSU International and UMSU Southbank have identified issues with this version of the constitution that impact their ability to function. In particular, an agreement was signed in 2019 between UMSU and UMSU International promising certain changes in the constitution by Semester 1 2020. Due to COVID-19, UMSU has not been able to hold an AGM or SGM, thus these changes have not happened yet. This Working Group aims to reflect on and improve UMSU's Constitution, its regulation and policy, as well as resolve the UMSU x UMSUI agreement.
