Scotty So

24 July / 2 August 2019

06:00/18:00 is the resolution of So's research into ideas of queerness and cultural hybridity inspired by his lived experience of relocation. He looks to the road trip, billboard, backyard party, and road sign as representations of non-place', and draws on these to challenge conventional experiences of place. Through installation, lighting and projection, So creates an uneasy sense of being both in and out of place and time, simultaneously.
