

## From Beards to Badges

A history of our Student Union's activism  
26 February / 14 March

The fashions may have changed, but the passion and power of the student voice has always been strong, no matter the political landscape. This exhibition celebrates the struggles and the victories of a united front which spans the decades. From the early days of bearded gents to the current brace of badged activists, we creatively investigate our Student Union's vibrant story.
